About Us

Zraya Technology provides customers with a wide assortment of technology-based products at affordable prices. Our company came into existence in 1989, with an intention to provide excellent range of products. Since then, we have been a prominent manufacturer, supplier and trader of Motion Sensor, Auto Switch, AVM Meter, Digital Starter, Electronic Motor Starter, Elite Plus Control Panel, and more products. These are made available to customers in different models at reasonable rates.

We have positioned ourselves as the first choice of customers across the market as a result of our extensive market reach. We ensure to provide prompt delivery of every order that we receive from respectable customers. We work hard to not just meet the market requirements by exceed expectations of customers in order to establish ourselves as a reputable company. In addition to the quality, we are renowned for our integrity and customer-focused business practices. We are happy to report that customers prefer our business to that of competing businesses. Since the beginning, we have been putting efforts to satisfy every customer because we know that this is the key to the door to success.
